

About PharmAccess

PharmAccess is a Dutch not-for-profit organization known as a pioneer in development cooperation and has launched several ground-breaking initiatives involving public-private partnerships and innovative health financing mechanisms. PharmAccess was founded in 2001 and is dedicated to improving access to health care in Africa. PharmAccess has built an extensive network working with governments, international donors and development organizations as well as private companies and investors.

Value-Based Care

PharmAccess, in collaboration with the NHIA and the Christian Health Association of Ghana (CHAG), is advancing value-based care in Ghana. This approach focuses on compensating healthcare facilities based on the quality of care they provide rather than the quantity of services delivered. This concept was initially piloted at 20 CHAG facilities and is currently in the phase of designing interventions that emphasize lifestyle changes through patient groups, remote monitoring, and intensive behavioural change programs.

Med4All+
...the digital procurement platform

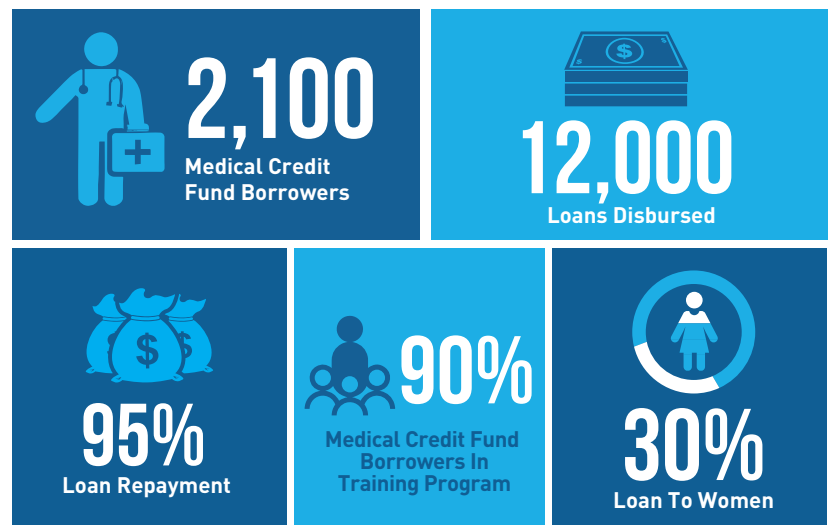

The headaches of stockouts, counterfeit or expired drugs are over.
As a healthcare facility, Med4All connects you directly with pre-qualified medicine suppliers. Meaning you can access quality medicines at the right price.

Medical Credit Fund Achievements

SafeCare Achievements

PharmAccess, through NkwaPlus, is delivering Value-Based Care by empowering providers with real-time data to improve outcomes in hypertension and diabetes care. **NkwaPlus** is a digital health solution enabling remote management of hypertension and diabetes allowing patients to share real-time vitals and clinicians to act early and effectively. Derived from the Akan word “**Nkwa**”, meaning **life**, NkwaPlus reflects our commitment to improving life, health, and more through accessible, patient-centered care.
